WORK EXPERIENCE

Newgen Softwares

Senior Software Engineer

July 2021 - Present

- Led the upgrade of the Star Union Dai-ichi insurance project, improving scalability by 25% and transitioning from legacy systems.
- Designed and implemented new UI features with React.js, reducing page load time by 40% and enhancing user engagement.
- Mentored a team of 6 junior developers, streamlining code review processes and improving development efficiency by 20%.
- Resolved critical system issues under high traffic, ensuring 99.9% uptime.

EDUCATION

Guru Gobind Singh Indraprasth University, New Delhi

Bachelors of Technology (IT) - 8.93

June 2017 - June 2021

SSNIC, Uttar Pradesh

Intermediate - 91.6

April 2015 - May 2016

PROJECT

TrendFusion E-commerce App

11/2024 - 01/2025

Built with MERN Stack, JWT Authentication, Stripe, and Razorpay

Developed a full-featured e-commerce platform with user authentication, an admin panel for managing products and orders, and secure payment integrations using Stripe and Razorpay. Designed a responsive UI with React.js and implemented scalable backend APIs using Node.js and Express.js, with MongoDB for database management.

Connect Us App

02/2024 - 06/2024

Built with ReactJS, NodeJS, MongoDB, and JWT Authentication

Created a social platform to connect developers globally, featuring secure JWT-based authentication, real-time updates with Redux, and a responsive user interface. Designed scalable backend APIs with Node.js and Express.js, and utilized MongoDB for efficient data management.

Kraduae

07/2024 - 08/2024

Built with ReactJS, CSS, and GSAP

Developed a dynamic and visually engaging Steel Industry app utilizing CSS for styling and GSAP for smooth animations and transitions. Focused on creating an intuitive and responsive user interface to enhance user experience.
